[Peanut Island - A Tropical Paradise with Historic Significance](#)

Palm Beach County's Parks & Recreation Department has received national awards and recognition for a reason: we provide diverse, safe and affordable recreation service, welcoming parks, and enriching social and cultural experiences. Our sights are set on promoting wellness, practicing environmental stewardship, contributing economic value, and improving this community into the future.

This also includes a commitment to preserving historical sites, like those found on Peanut Island. Excavation performed in 1918 to create the Lake Worth Inlet resulted in the formation of the island, which grew over time as a spoil site. The dredging, which was vital to plans to support the trade of peanut oil out of the Port, led to its name. Now an 80-acre tropical park, Peanut Island is home to a former U.S. Coast Guard Station and boathouse, and the John F. Kennedy Bunker, a Cold-War era nuclear bomb shelter built in 1961.
