Award-Winning Care

Comprehensive Resuscitation Center of Excellence

**This designation highlights our commitment to delivering
exceptional outcomes in cardiac arrest care.**

Earned recognition by implementing best practices that align with the Comprehensive Resuscitation Center of Excellence criteria. Some of those efforts include:

- Standardized Care Plans
- Evidence-based Protocols
- Multidisciplinary Support
- Mechanical Circulatory Support Technology And Capabilities, such as ECMO
- Intensive Neurological Critical Care Monitoring 24/7
- Strong Collaboration With Emergency Medical Services Partners
- Community Outreach
- Involvement in Research

Enhancing Survival Rates

Each year, approximately 350,000 people in the United States experience an out-of-hospital cardiac arrest (OHCA) or sudden death.

Out-of-hospital cardiac arrest survival rates are critically low.

- Florida Average: 9.4% of cases resulting in favorable outcomes
- National Average: 12.3% of cases resulting in favorable outcomes
- **PBGMC Average: 18.6% of cases resulting in favorable outcomes**
